

Declaration of Functional Sovereignty of Motovilichian Reich

By the power of our Lord and Savior Jesus H. Christ, we, the people of Motoviliha and of all the land of Perm declare Our right to be and be as declared further:

1. Motoviliha - to be known as the Free State of Motoviliha (or Motovilichian Reich) - is a semi-independent territory, spanning within the borders of Perm, Russia, Krasnokamsk, Russia and the land in between them.
2. Motovilichians - the people of the Free State of Motoviliha - any citizen of Perm, Russia, Krasnokams, Russia and the land in between them - is to be recognized as the primary sort of legitimacy of Motovilichian Law and its representatives.
3. The Free State of Motoviliha does not defy the Law of Russian Federation (within whose borders it's located) itself, though, will object some specifics.
4. The Free State of Motoviliha is still a part of Russia and does not require or request any independence, yet it requires and demands Functional Sovereignty, which is to be recognized as the following:
 - The Motovilichian Law may deviate from Russian Law, even if one contradicts the other;
 - The Motovilichian Citizenship may be given to those not having a Russian one or vice versa;
 - The Motoviliha may or may not pay any taxes to the Russian Government, depending on a financial situation in the Free State;
 - The judicial power of Russian Law is to be disregarded in favor of the Motovilichian one, unless the permit is to be given by the current representatives of the Motovilichian Law.
5. To establish the Functional Sovereignty, at first, the Free State of Motoviliha is to employ Academiocracy ("the rule of the university") as its form of government - with the Department of Occult Sciences as its executive organization and pr. Voland as the main representative of the Motovilichian Law.
6. Any further changes and details of the Motovilichian Law are not to contradict the Declaration and to be expressed by the release of the Constitution of the Motovilichian Reich and of the Development Plan of the Motovilichian State
